

If a playoff game is tied at the end of regulation, go straight to Kicks-from-the-mark (using the first mark – closest to the goal). First round is 5 v 5. The 1 v 1 sudden death after that. No clear instructions on which players can take the kicks or reducing to equate. Just get the first five shooters from each team. If you get to the 1 v 1 round just be sure that every available player has taken a turn before allowing a player a second shot (if one team has more players let them reduce if they want to).
